To gain further information on IT & Internet/computer training in Canada (location: Toronto and Montreal), travel arrangements and accommodation, visas etc, you can give instructions to your IT department to request a **free information package**. After receiving the information package, the IT department will be contacted by our experienced Computer Analyst/Coordinator who will discuss training needs, schedules and fees. We will then issue a custom-package, tailored specifically for your IT department requirement or any group from the department. Upon completion of reaching an agreement, we will issue admittance letters to all trainees, which will enable them get visa to Canada upon presentation at the Canadian Embassy in Nigeria.

There has never been a better time for IT & Internet/computer training today in Nigeria, and or towards a new career in the computer industry and there is no organisation better to learn with, so join the thousands of other people who have studied with The iNetworks IT Training Centre and are already working in the computer industry and IT.

Yours truly,

Dr. Engr. Baba Jibrin Adamu, Ph.D

Business Approach

The world economy is continuously changing so also its landscape, which affects the way businesses operate. Recognizing the need to maintain a flexible environment, our business approach considers all aspects of the business environment, including strategy, resources, technology, process and cost. We maintain a breadth of knowledge and expertise necessary to strengthen your ability to compete in the marketplace and surpass your expectations.

Our service infrastructure, industry-standard best practices, structured methodologies, and long-standing alliances enable us to provide the people and expertise to help our customers align their IT initiatives with their business.

Our Vision

Our vision is to become the trusted IT infrastructure services partner to the world's most successful companies and government institutions.

iNetworks Canada (initially called ibabsNet) was founded in 2001 to provide state-of-the art Internet & Communication technology and global support services to empower businesses, organizations and government institutions with the ability to communicate securely and effectively.

In 2003, management initiated an effort to expand the organization by establishing a key strategic partnership with **Chezola Systems** in Montreal and a 30-year Californian IT company - **Western Technology Solutions Inc.**

SHORT BIO

*Dr Baba Jibrin Adamu
Ph.d Engr.*

Dr. Engr. Baba J ADAMU: was born in Kaduna (Unguwan Liman), Kaduna State, Nigeria. Dr. Baba Jibrin Adamu is the youngest son of the late Malam Alhaji Adamu Jibrin Imam, the former Chief Imam of Kaduna State Central Mosque located in Kano Road Kaduna. Dr. Baba J Adamu represented Kaduna State based on academic qualification to go on a scholarship program to study Civil Engineering up to Masters Degree in Poland in 1986. Having completed successfully his M.Sc in 1993, again based on academic excellence received a Polish Government Scholarship to continue to do Doctorate degree in Industrial Research and silo/bunker Technology. Dr. Adamu specializes in Silos and Security Bunker technology and completed his Ph.D in 2000 with Excellence. He then moved to Toronto, Canada in 2000, where is acquired various Certificates in IT, Management and Business at Humber College Institute of Technology and Advanced Learning, Toronto Ontario, as well as at the Banf Academy for Business, Calgary, Alberta, CANADA. He now lives and works in Canada as an Engineering/Security Consultant and as the President and CEO of iNetworks Canada, a Managed Technology Solution company based in Toronto.

As of this writing, dr Adamu is undergoing United Nations training on Global Terrorism, Law of Arm Conflict and UN working System through the United Nations Institute for Training and Research (UNITAR POCI), New York, USA. Dr Adamu has tremendous experience in management of men and materials in private sector, good knowledge of international and Nigerian political, economic and social environment, high level of integrity, evidence of personal discipline as well as courage of conviction. He has a strong conviction for the respect for the rule of law, respect for human rights, beliefs in popular participation and consultation, knowledge and understanding of the working of the international system, voluntary service to the community, sense of history and lesson, competence in concepts and tools of development and respect for African value and cherished all Nigerian traditions. Dr Adamu is an expert both in Structural engineering and . In his own words:

"Where despair and hopelessness exist, those who have the ability to take action have the moral responsibility to take action to help those who live on the bare edge of survival. And democracy is more than the creed of our country, it is the inborn hope of our humanity, an ideal we must carry, a trust we must bear and pass along. And even after all these years, we have a long way yet to travel, that is why **We must all be involved ...**" - *Baba Jibrin Adamu, Ph.D Engr.*
